

**Yitong Filter Machinery Co., Ltd.**

Focusing on providing the most extensive filtration solutions for global customers in 16 years

## **String wound filter cartridge**

Yitong string wound filter cartridge adopts the cotton thread as the filter media. The cotton thread is wound around the PP core layer by layer, provides truly depth filtration. It has great dirty holding capacity and interception ability, which provides great sediment filtration effectiveness.

### **Product Description:**

Yitong string wound filter cartridge adopts the cotton thread as the filter media. The cotton thread is wound around the PP core layer by layer, provides truly depth filtration. It has great dirty holding capacity and interception ability, which provides great sediment filtration effectiveness. It also has exceptionally high structural strength, therefore, it can withstand higher PSID and severe operating conditions.
